

Orlando FSDO FAAST Team presents:

Operations at Non-Towered Airports!

Ops at Non-Towered Airports

Mr. Jamie Beckett, AOPA's Ambassador from Central Florida and a gifted aviation speaker, will lead a guided discussion about our operations at non-towered airports.

Whether you're inbound on an IFR Approach or just out exercising your skills on a VFR day at a non-towered airport, many of us have a common misunderstanding that non-towered airports are uncontrolled. That couldn't be further from the truth. This presentation is designed to dispel the myth while educating the attendee on proper practices and the reasons to adhere to them. It will be an enjoyable and informative topic for both IFR and VFR pilots.

A long time AOPA Rusty Pilot seminar speaker, Jamie Beckett adds: I will be happy to include some material on Rusty Pilots. We've just crossed over the 10,000th pilot to get current again after attending a Rusty Pilot seminar or webinar. This AOPA Rusty Pilot program has been astoundingly successful. That's a big number that will only get larger as the years go by.
